

Coming Soon... Carondelet

Pop-up traffic-calming demonstration

What is traffic calming?

Traffic calming makes streets safer for people who walk and bike by reducing the speed at which cars travel. For one day in your area, we will display ways in which we can build safer streets for all.

What is a pop-up demonstration?

A pop-up demonstration is a one-day traffic calming installment that lasts 6 to 12 hours. The event helps to inform and educate for future planning.

When?

Tuesday, October 20, from 7 a.m. to 5 p.m.

Where?

On Bates Street behind Woodward Elementary School
